Benefits of Little League Baseball

If your child is not playing Little League Baseball this year, this is what they may be missing:

- The opportunity to play in a league where the emphasis is on balanced teams, sportsmanship and great baseball.
- The opportunity to play baseball with children who are members of YOUR community, not from communities miles away. Children from families of people you live near, they go to school with, attend religious services with and shop with.
- In Little League baseball, pitchers focus on pitching, batters learn faster bat speed and fielders learn quicker hands. Practices focus on fundamentals...not learning pick-off plays you never see in the big leagues.
- The opportunity to be involved in the most comprehensive playoff system in youth sports, which culminates in nationally televised **LITTLE LEAGUE WORLD SERIES** on ABC and ESPN!

Lakewood Village Little League consistently competes for the championship of District 38 at every level.

Remember, not all youth baseball organizations are created equal. Contact Lakewood Village Little League today for more information!
